## What are the risks of investing?

### Risk indicator for the GBP Balanced Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-kickstarter](https://sorted.org.nz/tools/investor-kickstarter)

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. As the Fund has not been in existence for five years the risk indicator is based on the fund's returns data for the period 1 August 2022 to 30 September 2022 and market index data for the period 1 October 2017 to 31 July 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

## Currency hedging

The base currency of the Fund is Great British pounds and the base currency of the underlying funds is United States dollars. No currency hedging is performed at the fund level and the fund is not hedged to New Zealand dollars. The underlying funds invest in international securities and are hedged back to United States dollars by the investment manager of the underlying funds. The currency hedging is passive, meaning the investment manager of the underlying funds target the benchmark hedging level (i.e. 100%), although actual hedging may differ from this, due to cash flow and market movements.

Lifetime has made reasonable endeavours to obtain all relevant information regarding currency hedging, but due to a lack of information (i.e. the underlying investment manager does not publish foreign hedging levels) Lifetime is not able to report the foreign hedging level of the Underlying Funds.

Additional information about currency hedging is available in the 'SIPO' on the 'Scheme Register' at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz) (search for 'Garrison Bridge Superannuation Scheme').
