What are the risks of investing?

Risk indicator for the GBP Conservative Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. As the Fund has not been in existence for five years the risk indicator is based on the fund's returns data for the period 1 January 2019 to 30 September 2022 and market index data for the period 1 October 2017 to 31 December 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.

How has the fund performed?

	Past Year
Annual return (after deductions for charges and tax)	-14.88%
Annual return (after deductions for charges but before tax)	-13.98%
Market index annual return (reflects no deduction for charges and tax)	-13.14%

The market index annual return for the Fund is a composite index (before annual fund charge and tax), comprising 10% Markit iBoxx GBP Liquid Investment Grade Ultrashort Index, 55% Bloomberg Global Aggregate Corporate Index 100% hedged to GBP, 5% FTSE EPRA/NAREIT UK Property Index and 30% MSCI world ESG Screened Net GBP.

See the Statement of Investment Policy and Objectives (SIPO) for details of the Fund's benchmark asset allocation and the asset class indices.

Additional information about the market index is available in the 'Market Index' document on the 'Offer Register' at disclose-register.companiesoffice.govt.nz (search for 'Garrison Bridge Superannuation Scheme').

This shows the fund return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 30 September 2022.

This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 31 March 2022 these were:

% of net asset value	
Total fund charges	1.25%
Which are made up of:	
Total management and administration charges	1.25%
Including:	
• Manager's basic fee	0.40%
• Other management and administration charges	0.85%
Total performance-based fees*	0.00%
Other charges	
Dollar amount per investor	
£0.00	

* There are no performance fees charged by the Fund.

All fees are GST inclusive (if applicable).

Investors may also be charged individual action fees for specific actions or decisions. For example, during the period to 31 March 2022, the funds strategic asset allocations were formally reviewed and amended to increase the Scheme's exposure to investments that recognise the importance of environment, social and corporate governance (ESG). The costs of rebalancing the portfolio in 2022 has been deducted from the scheme. See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Ben had £10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of -£1,398 (that is -13.98% of his initial £10,000). Ben also paid £0 in other charges. This gives Ben a total return after tax of -£1,488 for the year.

Currency hedging

The base currency of the Fund is Great British pounds and the base currency of the underlying funds is United States dollars. No currency hedging is performed at the fund level and the fund is not hedged to New Zealand dollars. The underlying funds invest in international securities and are hedged back to United States dollars by the investment manager of the underlying funds. The currency hedging is passive, meaning the investment manager of the underlying funds target the benchmark hedging level (i.e. 100%), although actual hedging may differ from this, due to cash flow and market movements.

Lifetime has made reasonable endeavours to obtain all relevant information regarding currency hedging, but due to a lack of information (i.e. the underlying investment manager does not publish foreign hedging levels) Lifetime is not able to report the foreign hedging level of the Underlying Funds.

Additional information about currency hedging is available in the 'SIPO' on the 'Scheme Register' at disclose-register.companiesoffice.govt.nz (search for 'Garrison Bridge Superannuation Scheme').
