Number of investors	43
The date the Fund started	3 November 2025

What are the risks of investing?

Risk indicator for the NZD Cash Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. As the Fund has not been in existence for 5 years, the risk indicator is based on the Fund's returns data for the period 01 November 2025 to 31 December 2025 and market index returns data for the period 1 January 2021 to 31 October 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund

How has the Fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable ¹
Annual return (after deductions for charges but before tax)	Not applicable ¹
Market index annual return (reflects no deduction for charges and tax)	3.55%

The market index annual return for the Fund is the S&P/NZX Bank Bills 90-Day Index (before annual fund charge and tax).
