Total value of the Fund	NZD $3,092,559
Number of investors	18
The date the Fund started	5 February 2026

What are the risks of investing?

Risk indicator for the NZD Conservative Fund No. 2

← Lower risk | Higher risk →

1	2	3	**4**	5	6	7

← Potentially lower returns | Potentially higher returns →

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-profiler/**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. As the Fund has not been in existence for five years, the risk indicator is based on the Fund's returns data for the period 1 March 2026 to 30 June 2026 and market index returns data for the period 1 July 2021 to 28 February 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Past year
Annual return (after deductions for charges and tax)	**Not applicable**[1]
Annual return (after deductions for charges but before tax)	**Not applicable**[1]
Market index annual return (reflects no deduction for charges and tax)	**8.58%**

The market index annual return for the Fund is a composite index, calculated using the return of each asset class index the Fund invests in, weighted by the Fund's benchmark asset allocation.

See the Statement of Investment Policy and Objectives (**SIPO**) for details of the Fund's benchmark asset allocation and the asset class indices.

Additional information about the market index is available in the 'SIPO' on the 'Scheme Register' at **disclose-register.companiesoffice.govt.nz** (search for 'Garrison Bridge Superannuation Scheme').

What fees are investors charged?

Investors in the Fund are charged fund charges. Based on the PDS dated 13 February 2026, these are:

	% of net asset value
Total fund charges	0.78%
Which are made up of:	
Total management and administration charges	0.78%
Including:	
• Manager's basic fee	0.75%
• Other management and administration charges	0.03%
Total performance based fees*	0.00%
Other charges	**Dollar amount per investor**
	$0.00

*There are no performance fees charged by the Fund.

All fees are GST inclusive (if applicable).

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from funds). See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.[2]

Example of how this applies to an investor

Ben had $10,000 in the Fund on 9 February 2026 and did not make any further contributions. At the end of the period to 30 June 2026, Ben received a return, after fund charges were deducted, of $299 (that is 2.99% of his initial $10,000). Ben also paid $0 in other charges. This gives Ben a total return after tax of $297 for the period from 9 February 2026 to 30 June 2026.

Currency hedging

The following foreign currency exposure targets will apply to international assets:

• International fixed interest – 100% hedged to New Zealand dollars.

• Australian equities - unhedged.

• International equities – 50% hedged to New Zealand dollars. However, we may aim to add value by tactically adjusting the strategic hedging level on international shares above or below the benchmark of 50% depending on our view of how the New Zealand dollar will perform.

• International listed property – 100% hedged to New Zealand dollars.

• International listed infrastructure – 100% hedged to New Zealand dollars.

The currency hedging is passive, meaning the investment manager of the underlying funds target the benchmark hedging level, although actual hedging may differ from this, due to cash flow and market movements.

Additional information about currency hedging is available in the 'SIPO' on the 'Scheme Register' at **disclose-register.companiesoffice.govt.nz** (search for 'Garrison Bridge Superannuation Scheme').
